A HOME STAYS WITH US THROUGHOUT OUR LIVE. IT IS A PLACE OF RELAXATION WELL - BEING AND INTIMACY

CREATING HIGHER STANDARDS At LAVITA we love bathrooms! And we are consistently working to achieve perfection since 2013 and making elegant pieces to enhance and evaluate your bath space. Our wide range ensures that there is something for everyone – from contemporary to traditional designs, and everything in between. You will notice that our distinctive flair for design runs through every piece that we create. Combine this with years of experience and it's clear why we have a reputation for providing premium quality Sanitaryware. We manage the end to end delivery flow from sourcing of raw materials to casting, drying, glazing, firing, water testing, and final inspection before packing. Our dedicated and experienced workforce ensures that our flow is not interrupted and our deliveries are on time, every time. With multiple quality checks – from sourcing to delivery – we guarantee quality and provide guarantee of 11 years.

High quality, high performance and their irresistible looks, works to create a pure minimalist bathroom that is modern and timeless. Their designs are meticulous balance of style and functionality, providing aesthetic consistency throughout the bathroom. The perfect harmonisation of minimalist style and maximum performance makes LAVITA faucets truly innovative for the contemporary bathrooms. With a wide range of faucet collection, we offer an amazing source of unmatched quality and timeless beauty with 10 years of warranty.

We have established a reputation and trust for being a reliable & sincere manufacturer of Sanitaryware, Faucets, Accessories and other bathroom related products. We strictly believe in traditional values of honesty and integrity over the years, which has led our customers patronizing on us year after year.

Our vision is to be the leading brand of quality Sanitaryware & Faucets for our valued customers. This is not just a goal for its own sake, but a constant ambition to produce the perfect bathrooms, that make a house a home for you. We are on the continuous effort to improve both the functionality and the design of our products by having direct integrations with designers. Innovation and new solutions our way forward to future considering the trivial needs. All our products complement each other in design, function and finish.

All of the products carry manufactures warranty against poor craftsmanship or product damage (conditions apply).

LAVITA
LETS TALK BATHROOMS

WATER SAVING

Our WCs have a special bowl structure and are specifically designed to flush with both lower (2.5/4 litre) and typical (3/6 litre) water volumes.

By using less water, these water saving WCs benefit you and the environment. All Watero standard height wall-hung frames come with dual flush function as standard in both 2.5/4 litre and 3/6 litre options.

SPACE SAVING

A wall-hung WC takes up less room than a conventional WC, and the concealed installation offers flexibility in confined spaces. The range of compact WCs have shorter projection, saving even more space.

ACCESSIBLE

These products are wheelchair accessible and provide enhanced convenience in the bathroom.

RIM-LESS TECHNOLOGY

Offering effortless cleaning and innovative, hygienic design. Watero's rimless WC pan eliminates the areas where germs gather and multiply, giving a superior level of hygiene.

WASHBASIN FORMS

Washbasins can be used with a pedestal as well as being wall-hung. Basins suitable for use with a counter top can be fitted in three alternative ways:

FISCHER

A simple, elegant installation system for use with wall-hung WCs. The fixings are hidden from sight by the use of internal ABS sleeves, creating a clean, smooth design.

RIMLESS & SYPHONIC

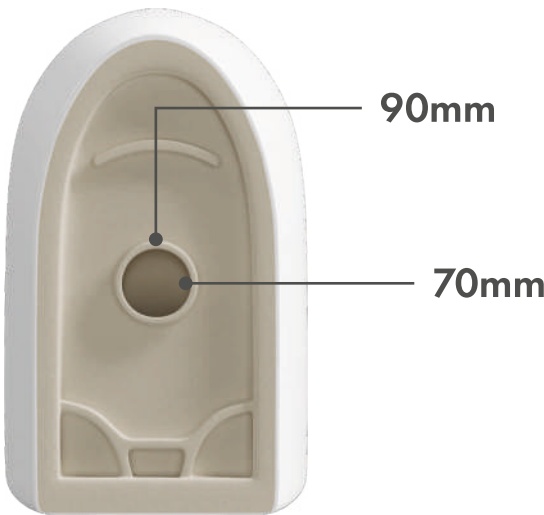

The Ultimate Rimless & Syphonic Technology for your Bathroom

Efficient Flushing: Syphonic commodes use a siphon action to create a powerful flush, effectively removing waste with less water compared to traditional gravity-fed toilets.

Cleaner Bowl: The strong syphonic flush tends to clean the bowl more thoroughly, minimizing the need for manual cleaning and reducing stains and odors.

Reduced Clogging: The forceful flush reduces the likelihood of clogs, providing reliable performance with fewer blockages.

Quiet Operation: Syphonic toilets are typically quieter during flushing compared to some other toilet types.

SYPHON PRO TECHNOLOGY

FEATURES

In-70mm
Out-90mm
With Trape Glazing
No Blockage Problem
High Pressure Flushing

FLUSH TECHNOLOGY

Tornado

Tornado flush system features two powerful nozzle that will create a cyclonic rinsing action. It will reduce waste buildup & keeps the bowl neat and clean. This high-efficiency mechanism is more effective in one flush that most toilets are with multiple flushes.

Siphonic

The siphonic flush system is also known as the suction flushing system. The siphonic flush system creates the narrow 'Q' shaped trap way. You'll have a clear bowl with a lower chance of skid marks. With the use of advanced technology in flushing.

Siphonic with Tornado

The combination of siphonic & tornado will bring the highest quality of hygiene into your bathrooms. With the help of this advanced & one of the easiest to maintain flushing systems, it'll be easier to keep up with cleanliness in just a second. We introduce you to brand new features 4D & 5D flushing system.

Wash Down

The way wash down flushing works is very simple. It will use the weight and gravitational flow of water from a toilet bowl. It will save your water effectively as it includes dual flushing.

Currently, producing faucets in multitudes per day, each with the same amount of precision & care. We use state-of-the-art technology and further test each faucet time & again for its quality and performance. Not only do we extend a **10 year warranty** on our faucets due to its superior quality but also due to our trust in being able to serve you for long after you have made your purchase.

Design & performance packed into one dynamic product, we present to you more than **10 faucet designs** to choose from, for the future of your bathroom and the start of your day.

CARTRIDGES

At the heart of any faucet, is its cartridge. The cartridge is responsible for the intensity of the water flow and temperature.

- To ensure a longer and trouble free operating life of upto 20 years, given the average number of operations per day is 60-70, Bafit cartridges are 5 lacs cycle tested.
- To avoid breakage or any disruptions we make sure to use brass instead of plastic in the spindle of our cartridges.
- Tried and tested to work smoothly even at high temperatures like 85 degrees as well as in a plethora of pressure conditions ranging from 0.5 to 5 bar.
- Our wide angled levers provide unmatched comfort and smooth, flawless operation.

AERATORS

To ensure a splash-free and gentle experience, every faucet is equipped with an aerator which softens the spash. It reduces the splash distance by reducing the volume of the water by making smaller streams inside the main stream of water.

- Our specially designed honeycomb-structured aerators, provide the perfect balance and a buildup protection.
- To protect from and avoid sediment and dust particles, our aerators are created with an anti-clogging dome screen.

CHROME FINISH

We promise to provide an unmatched shine that acts a dual warrior against corrosion and the test of time.

- With a high plating thickness of 10 microns Nickel and 0.3 microns Chrome, providing tolerance to extreme climatic and water conditions.
- To ensure a long lasting corrosion free life, every faucet is tested by going through more than 450 hours of salt spray tests.

Soft Water Flow

WARRANTY SANITARYWARE:

All our sanitaryware are warranted for a period of 11 Years from the date of purchase.

LAVITA warrants its Sanitary products to be free from defects in materials and workmanship during normal use when properly installed , serviced & used.

This warranty does not apply for the following issues:

- Dame or loss sustained in a natural calamity as fire, earthquake, flood, thunder etc.
- Damage or loss resulting from any unreasonable use, misuse, abuse, negligence or improper maintenance.
- Damage of loss from improper assembly and repair.
- Damage of loss resulting from sediments or foreign matter contained in the ware system.

CLEANING:

- Wipe the entire area properly whenever you take a bath or use closet/WC.
- Avoid using acids or bleachers for cleaning your Sanitaryware to keep it away from germs and stains. Opt for liquid cleaners that have a disinfectant effect on your Sanitaryware.
- Choose multi- purpose non-acidic cleaning agents with water. Remove discoloration or deposits with dishwasher agent and water.
- Wash your toilet seat with a disinfectant solution. Avoid using harsh chemicals on products where your body comes into contact with the walls.

WARRANTY FAUCETS:

All our Faucets are warranted for a period of 10 Years from the date of purchase. Showers and accessories are warranted for a period of 2 Year. The warranty period is not renewed or extended on the supply of the spare parts during the warranty.

It is at the option of LAVITA to remedy any defects by repairing of replacing the products of comparable value. The warranty shall not be applicable to the parts there after.

This warranty does not apply for the following issues:

- Those have been damages as a result of use or users misuse, negligence, accidents, faulty installation or improper maintenance of the product.
- Unauthorized alternations of the product.
- Hoses, rubber parts, plastic parts and consumable are not included in the warranty.
- Due to effort of dirt, lime scale or aggressive cleaners.

CLEANING:

- Clean the product with water soaked soft towel or bathing soap solution to keep the surface clean and free from depositions.
- Don't use any type of detergent/ cleaning agents, which consists acids or chemicals such as flush cleaner, Harpic etc.
- Don't use salt or vinegar based cleaning agents to remove scale or scale related stains, they may damage the surface.
- Clean overhead tanks and drain water to remove construction dirt or soil, do not close tap until draining is complete.

IMPORTANT

Acid Fumes: When we clean tiles or floors in the bathroom with the cleaning agents that contain acids, these acid fumes react with the basin material, brass and a green layer is formed on the product which damage the outer surface.

Scratching while cleaning: Scratching or scrubbing occurs due to hard nature of cloth or coarse cleaning powder being used in cleaning. Use gentle fluffy soft cloth.

Atmospheric Conditions: Applies to coastal areas, where atmospheric air has salt content which when reacts with the brass, causes black spots on the surface of the product. Therefore, advised to clean the surfaces at regular interval.

Products to be covered with cloth cover or with polythene till the time you actually use them after installation.

FOR ANY SERVICE REQUEST VISIT www.lavita.co.in/care or email us at care@lavita.co.in

ITEM	PROBLEM	PROBABLE REASONS	CORRECTIVE ACTIONS
Wash Basins / Table Top	1. Overflow Chocked And Foul Bed Odor	Waste Coupling Used May Be Full Threaded	Waste Coupling Should Be Changed To Slot Cut Coupling
	2. Water Deposit On Tap Platform Area And Inside Bowl Area	Basin Is Not Fixed In Level Or Bracket Is Not In Level	Should Be Done By Proper Leveling
	3. There Is No Tap Hole In Basin	Tap Hole Could Be Semi Punched From Back Side	Tap Hole Should Be Created By Plumber From Semipunched Area
Ewc / Pan / Anglo Indian	1. Water Not Coming In Bowl Area While Flushing	Flush Bend Is Not Inserted Up To The End Of Inlet Hole	Insert The Flush Pipe Up To The End Of Inlet (For Pan Closet: Check Whether Flush Pipe Is Not Covering Flush Hole Which Is In Both Side Of Inlet Wall
		Closet / Pan May Be Not Leveled	Should Be Done By Proper Leveling
One Piece Closet	1. Water Not Coming In Bowl Area While Flushing	Mechanism Inside Tank Could Not Working Properly	Change The Centre Pump Of Mechanism
		There Is No Water In Flush Tank	Increase The Ball Cock Height To The Max Level
	2. Water Is Continuously Leaking Inside The Bowl	Mechanism Inside Tank Could Not Working Properly	Change The Centre Pump Of Mechanism
	3. Water Quantity Insufficient For Effective Flushing	Ball Cock Height Adjusted At Lower Level	Increase The Ball Cock Height To The Max Level
	4. Uneven Flow Of Water From Bith Side Of Closet	Closet Is Not Leveled Properly	Closet Should Be In Proper Level
Wallhung Water Closet	1. Water Not Coming In Bowl Area While Flushing	Flush Valve May Not Working Properly / Concealed Cistern Is Not Working Properly	Should Change Flush Valve / Concealed Cistern
		Flush Pipe Is Not Inserted Up To The End Of Inlet Hole	Insert The Flush Pipe Up To The End Of Inlet
	2. Water Is Continuously Leaking Inside The Bowl	Closet Is Not Leveled Properly	Closet Should Be In Proper Level
	3. Water Quantity Insufficient For Effective Flushing	Connection Between Closet Outlet And Drainage Pipe Is Not Proper	Should Be Done By Proper Connection By Experienced Plumber
Couple Closet (2 Pcs Closet)	1. Uneven Flow Of Water From Both Side Of Closet Bowl	Both Arm Of Diverter Pipe Not Inserted Equally In Both Side Of The Closet	Both Arm Of Diverter Pipe Should Be Inserted Equally In Both Side Of The Closet
	2. Water Is Leaking Between The Cistern And Closet	Diverter Pipe Not Fixed Properly In The Outlet Of Cistern	Diverter Pipe Should Be Fixed Properly In The Outlet Of Cistern
		Rubber Ring Containing Bolt Is Not Tightened Properly	Rubber Ring Containing Bolt Should Be Tightened Properly

MAINTENANCE

Like any other part of your house, the bathroom can be made to look great and made to last if it is taken care of regularly. To make your bathroom beautiful here are some invaluable tips.

Wash Basin

A mild detergent can be used to wash the basin at least once a day. After washing, the basin should be wiped out clearly to avoid water stains.

Closets

Cleanser like Harpic can be used to clear the closet with soft plastic brush, at least once a day.

To avoid minute discoloring, after flushing the toilet give it a once over with the soft brush.

Keep the toilet brush handy in a convenient stand nearby.

In case of toilets and basins, if there has been no maintenance since long period of time, water deposits and discoloration can form on the surface of areas that get wet. In such cases, these stains / marks can be removed with the help of a solution of dilute hydrochloric acid.

Clean with a soft cotton cloth and warm water with soap.

Do not use thinner, dry cleaning liquids or powder paste. Use a liquid cleaner at least twice a week.

Use Brasso or car rubbing compound and then polish with a cloth to remove fine scratches.
